Gender Equality

Gender Equality

Gender equality is about recognising the affect that gender plays in our lives, leading to different needs and priorities, different constraints, different aspirations and contribute to and participate within community in different ways.

Achieving gender equality in our communities requires the recognition that every policy, program and project affects men, women and gender-diverse people differently. Using a gender lens when analysing, planning, and making decisions means carefully and deliberately examining all the implications of our work in terms of gender. A gender-wise program is one that considers the different needs and circumstances of people of all genders within the target beneficiary group.

The following questions are for data collection purposes only and will not affect the assessment of your grant application. Your responses will help inform gender-wise grant-making in the future.

Gender Lens

How will you address the needs of people of different genders in the design and management of your initiative?

We want you to show us how you have considered gender differences in designing your project/program so that you are reaching people equitably. If you are running a gender-specific initiative, please tell us why only one gender is being targeted. For more information on applying a gender lens to your work, visit <http://www.fundingcentre.com.au/help/gender-lens>.

How will you measure the gender reach of your project/program?

Please outline how you will know whether or not you have reached all genders equitably (presuming your initiative is designed for all genders). For more information on applying a gender lens to your work, visit <http://www.fundingcentre.com.au/help/gender-lens>

Will your project address gender inequality?

Yes No Don't know

Answer 'yes' if your project/program is specifically designed to improve opportunities for women and girls, or you think this may occur as a side-benefit to your initiative.

How will your initiative address gender inequality? *

What will you do to address gender inequality and what changes do you expect will occur as a result?
